Welcome to Checkmk Conference #7

Workshops
09:00 – 13:00 (CEST)

Tech Sessions
14:00 – 15:30 (CEST)

Presentations
16:00 – 20:30 (CEST)
Day 1: Explore Checkmk 2.0
Day 2: Discuss the future of Checkmk
Checkmk: we focus on solving your hybrid-IT challenge

- Masters the **heterogeneity** of the traditional stack
- Handles the **dynamic**, ephemeral nature of the modern stack
- **Automated** with deep operations know-how

- Built for **distributed scale** for a flexible hybrid set-up
- Designed for **multitude of deployment** options

Checkmk 2.0 and our roadmap are designed to address the challenges of hybrid IT
Our approach: innovate, integrate, open extensibility

**Innovate**

The best product for hybrid monitoring

*Traditional and cloud-native, operations experience built-in*
Our approach: innovate, integrate, open extensibility

**Innovate**
The best product for hybrid monitoring

*Traditional and cloud-native, operations experience built-in*

**Integrate seamlessly**
With observability tools and enterprise IT

*Your best-of-breed stack, fully integrated in your IT*
Our approach: innovate, integrate, open extensibility

**Innovate**
The best product for hybrid monitoring

Traditional and cloud-native, operations experience built-in

**Integrate seamlessly**
With observability tools and enterprise IT

Your best-of-breed stack, fully integrated in your IT

**Offer open extensibility**
API-based, open source

Empower our users, give back to the community
Checkmk 2.0 Highlights

Innovate

New UX & Dashboarding

Performance Booster
Checkmk 2.0 Highlights

**Innovate**
- New UX & Dashboarding
- Performance Booster

**Integrate seamlessly**
- Observability integrations
- API-automating Checkmk
Checkmk 2.0 Highlights

**Innovate**
- New UX & Dashboarding

**Integrate seamlessly**
- Observability integrations

**Offer open extensibility**
- API-extending Checkmk
- Open Source & Community
So, what’s next?
What's next for Checkmk

Innovate

Simplified monitoring from the Cloud

Build-out of our Kubernetes monitoring

UX & Dashboarding continued
What’s next for Checkmk

**Innovate**

- Simplified monitoring from the Cloud
- Build-out of our Kubernetes monitoring
- UX & Dasboarding continued

**Integrate seamlessly**

- Integrations with Grafana, InfluxDB, DataDog
- Expanded REST-API

The team – tribe29
Day 1 – June 15th 2021

16:00 – 16:30 Opening Keynote

16:30 – 18:30 The State of Checkmk

19:00 – 20:30 Fireside Chat + special guests

Day 2 – June 16th 2021

14:00 – 15:30 E2E Monitoring: Introducing Robotmk*

16:00 – 16:45 UX continued

16:45 – 17:30 Simplifying monitoring from the cloud

18:00 – 18:45 Integrations, automation and security

18:45 – 19:30 Kubernetes monitoring revisited

19:30 – 20:15 The Checkmk roadmap
Stay tuned!

Next up:

The State of Checkmk

16:30-18:30 CEST / 10:30 am -12:30 pm EST
