UX Goal: Maintain Checkmk's flexibility but speed up learning curve for new and 'casual' users

New and 'casual' users

- Shorten the learning curve
- Make Checkmk more intuitive

Power users

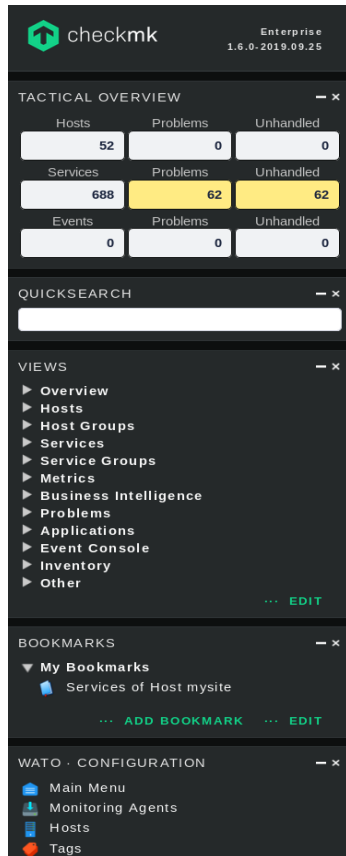

- Improve life for power users, e.g. for working with very large installations

Improve the UX for everyone!

Let's take a look at some areas
for UX improvement

Navigation: Sidebar concept good – but ‘full’

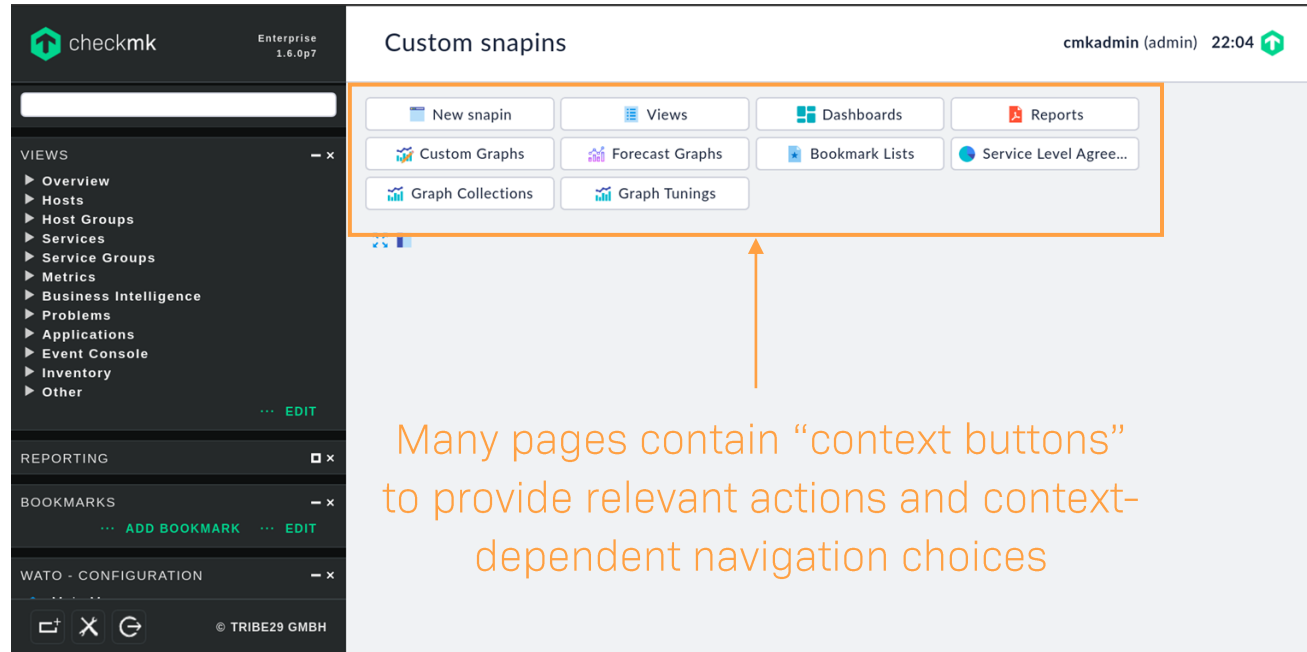

- ‘Tactical Overview’ often used
- Extendable with many options
- Customizable (e.g. views)
- One-click to target

- ‘Quite’ crowded
- Often scrolling, many don’t like

Navigation: Improve in-page context buttons

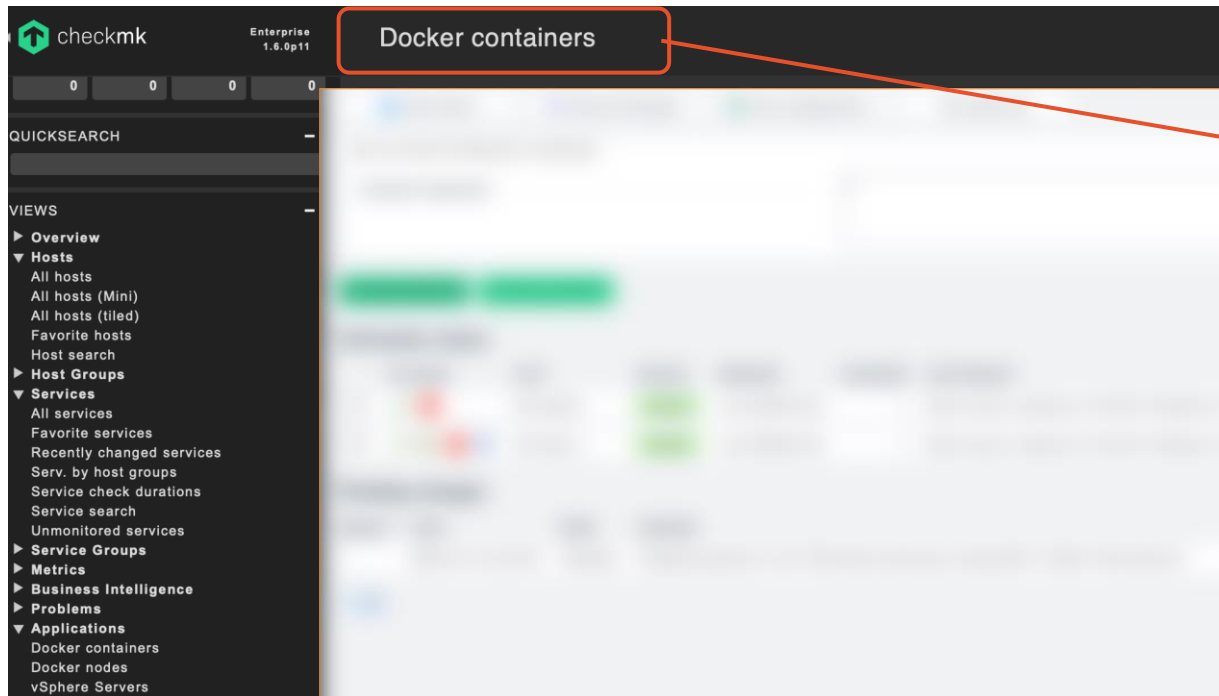

- ‘Sensible collection’
- Quick navigation
- Directly filter for context

- Limited text length to provide explanation
- Waste of vertical space

Navigation: Beginners struggle with “where am I”

- No information on where you are in the navigation
- In Configuration? In Monitoring?

Search: quick, easy, powerful – but not yet global

- Quick and easy access
- Powerful search operations

- No global search in Configuration (WATO)

Forms: Large feature breadth to configure

checkmk Enterprise 1.6.0-2019.09.05

Save & go to Services Save & Finish Save & Test

- Checkmk can solve the most niche problems (and all others of course)
- Dimensions categorized to topics
- Topics are “foldable”

- Large feature breadth for new users
- Hard to find mandatory or important fields
- Sometimes scrolling to action buttons

Dashboards: Add more options to visualize data

vSphere Dashboard - Level 1

STATE OF VMS		VIRTUAL MACHINES HEALTH

exvm16	OK	OK	WARN	OK	OK	2.0GB
exvm17	WARN	WARN	WARN	OK	OK	
exvm18	WARN	WARN	OK	OK	OK	
exvm19	OK	OK	OK	OK	OK	4.0GB

- Automatic fit to size of screen
- Sizing and layout of dashlets very easy

- Missing options to visualize data
- Not manager ready
- Somewhat complicated to build

Result: For major steps to improve UX

1

New navigation

- Improved Sidebar
- Better context buttons
- Know where you are
- “Super” search

Result: For major steps to improve UX

1

New navigation

- Improved Sidebar
- Better context buttons
- Know where you are
- “Super” search

2

Clarity

- Simplified pages/forms
- Clarity of naming
- Fresh design and icons

Result: For major steps to improve UX

1

New navigation

- Improved Sidebar
- Better context buttons
- Know where you are
- “Super” search

2

Clarity

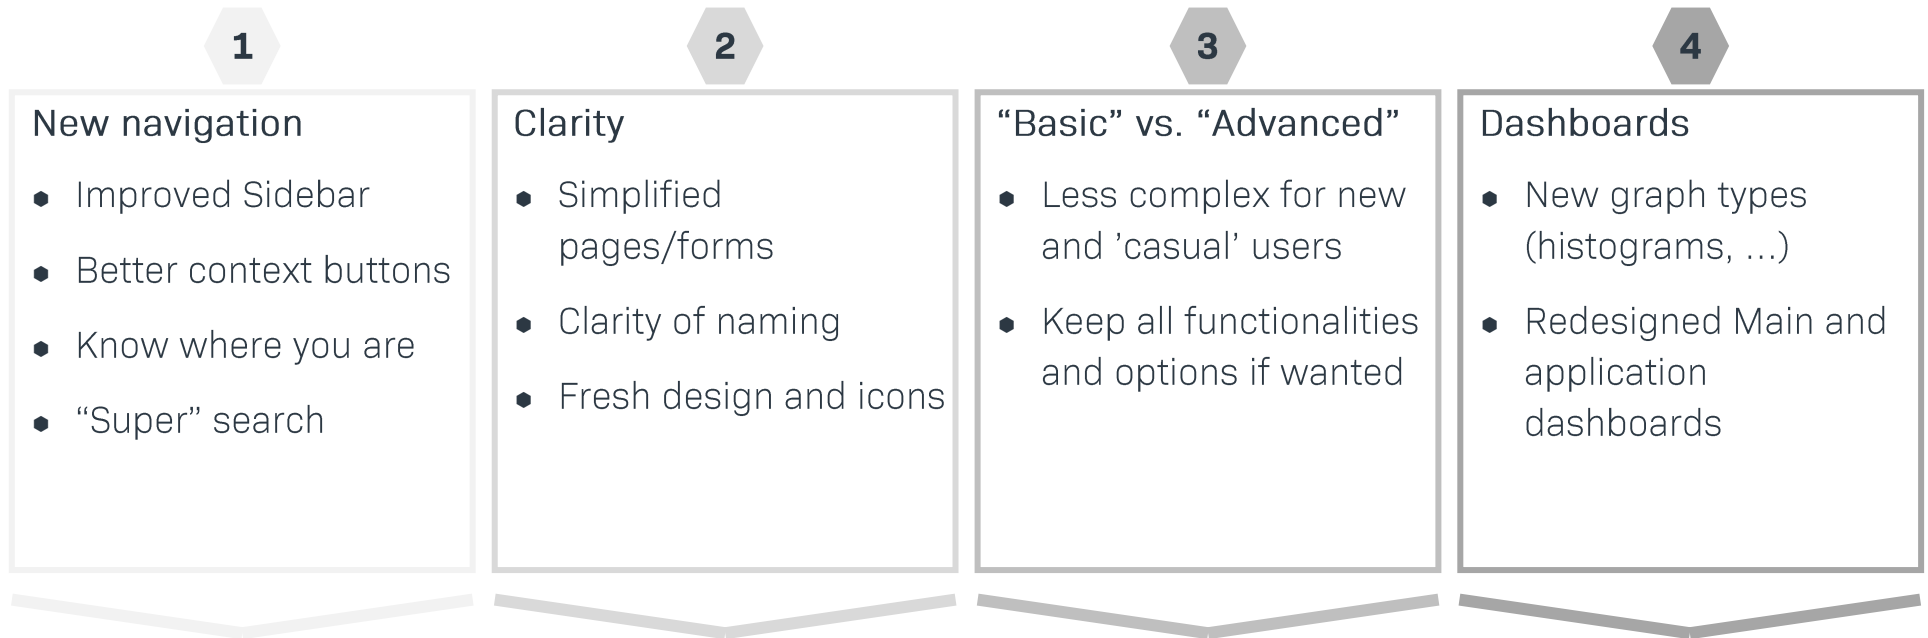

- Simplified pages/forms
- Clarity of naming
- Fresh design and icons

3

“Basic” vs. “Advanced”

- Less complex for new and ‘casual’ users
- Keep all functionalities and options if wanted

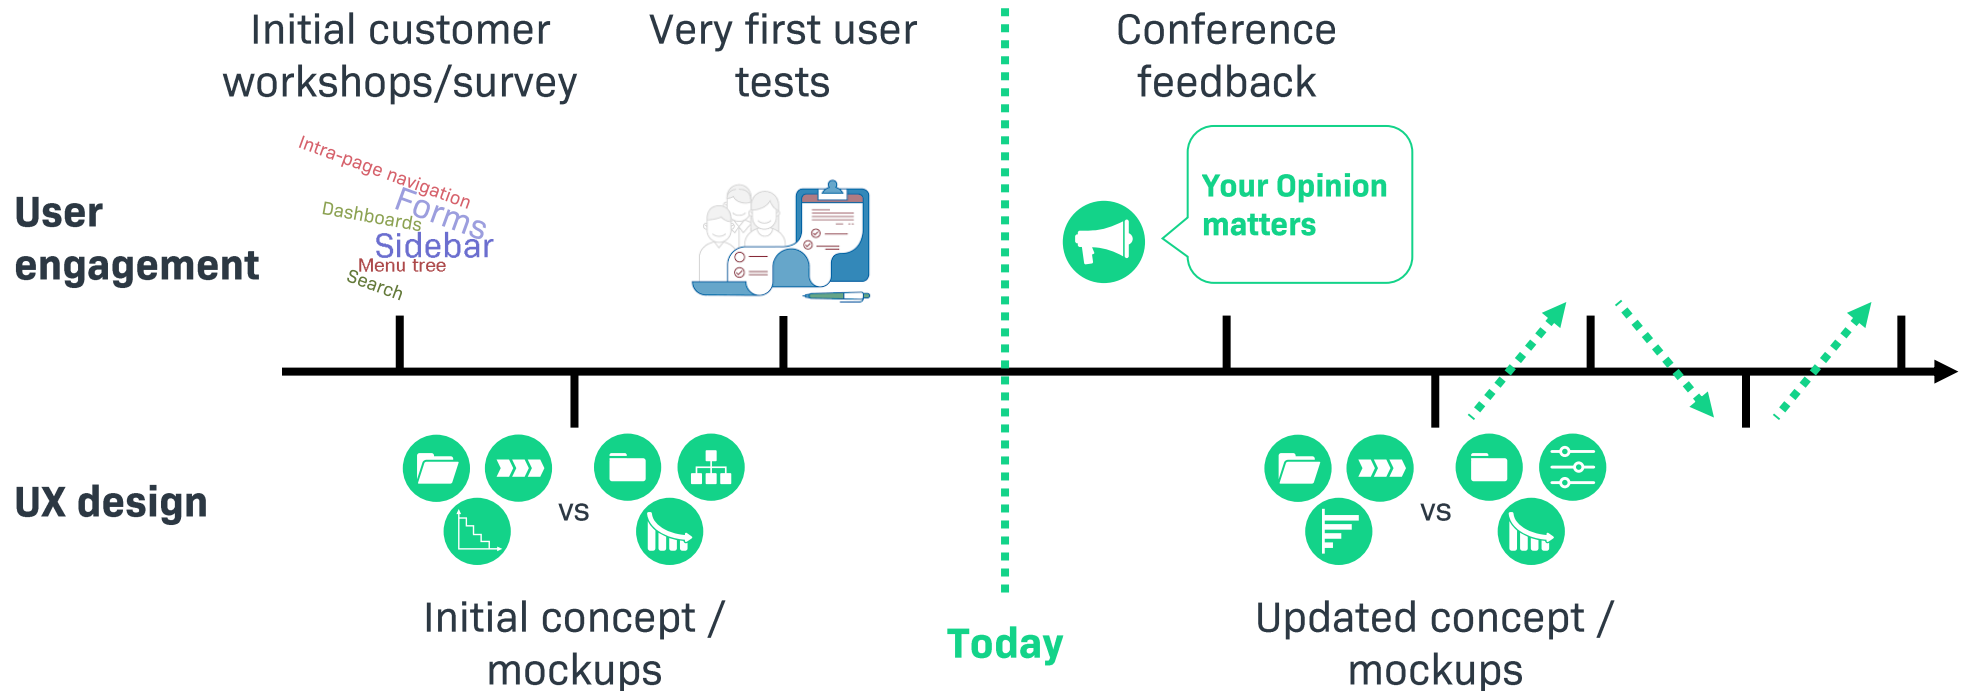

Result: For major steps to improve UX

Make a big step with Checkmk 1.7
and steadily improve thereafter, anchoring UX competency

„Soft“ migration for our beloved
power users 😊

We are still early in the process today

Live DEMO and live “polls”

We now want to demo some potential new features in different variants and run polls to ask for your views

There are some obvious caveats:

- You can just have a quick preview and not test it out
- Results are biased towards experienced user group
- We are asking you – not observing you

Nevertheless: Important input and barometer of opinion

Demo

-  Monitoring
-  Customization
-  Configuration
-  Administration

Q1: What user type is best describing you?

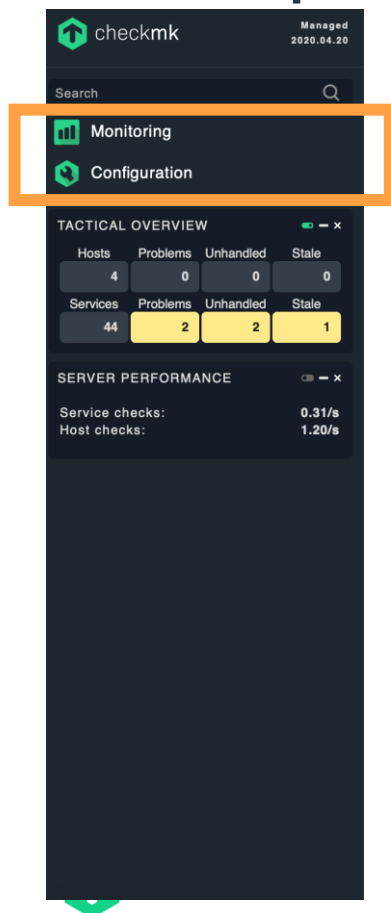

Answer options:

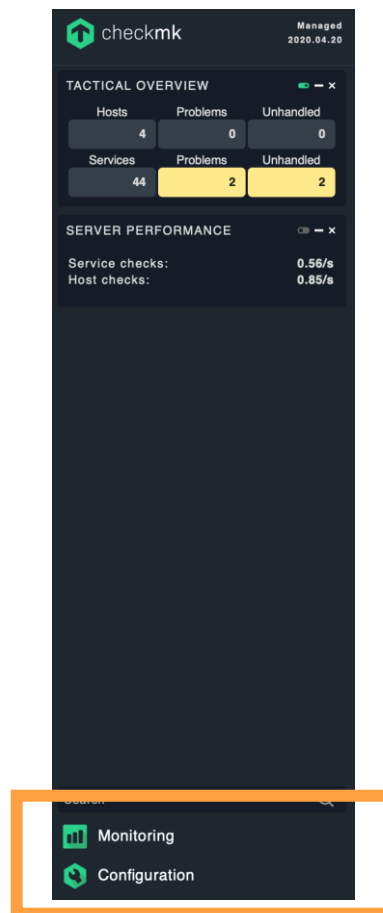

- ❑ Beginner (<1 year experience)
- ❑ Casual user (>1 year experience, <6h/w usage)
- ❑ Power user (>1 year experience, >6h/w usage)

Q2: Would you prefer to have the menu at the top or the bottom of the sidebar?

VOTE
NOW

❑ Top of sidebar

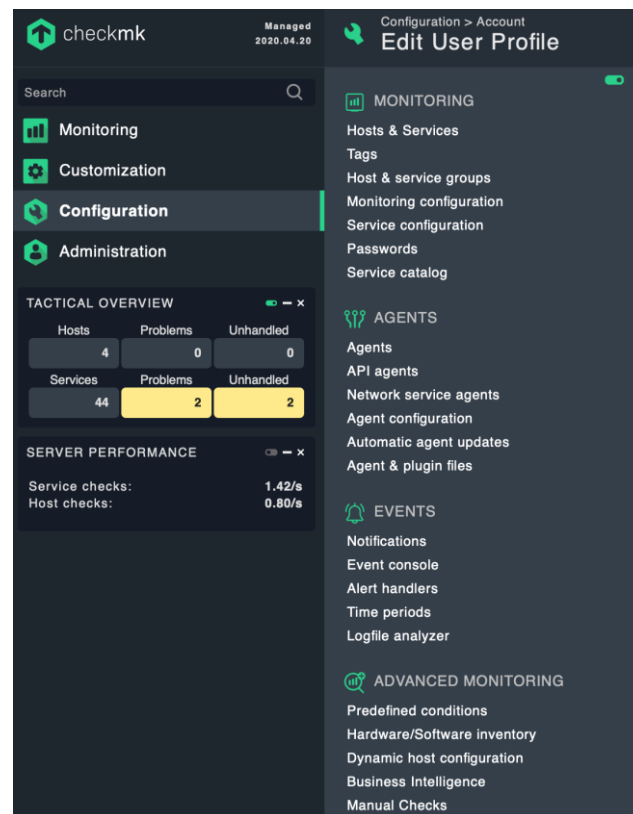

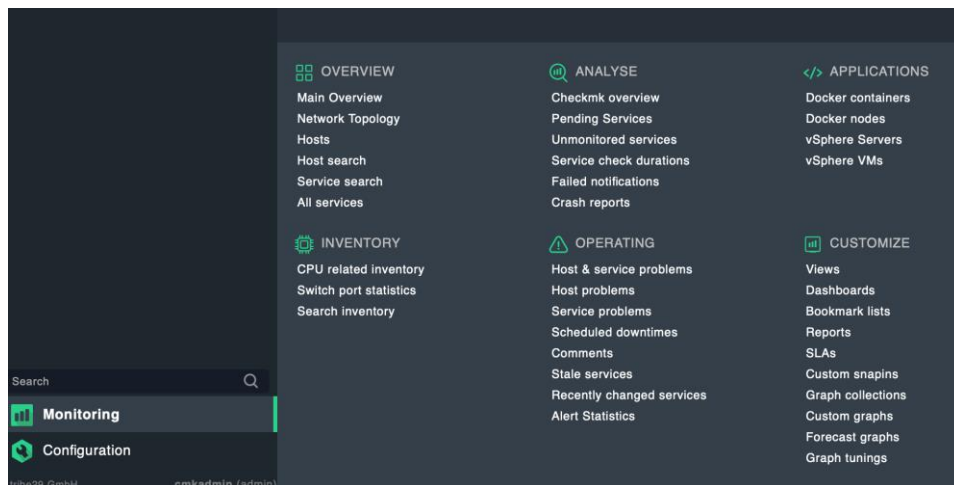

❑ Bottom of sidebar

Q3: Would you prefer a 'mega-menu' or the menu in a '2nd sidebar column'?

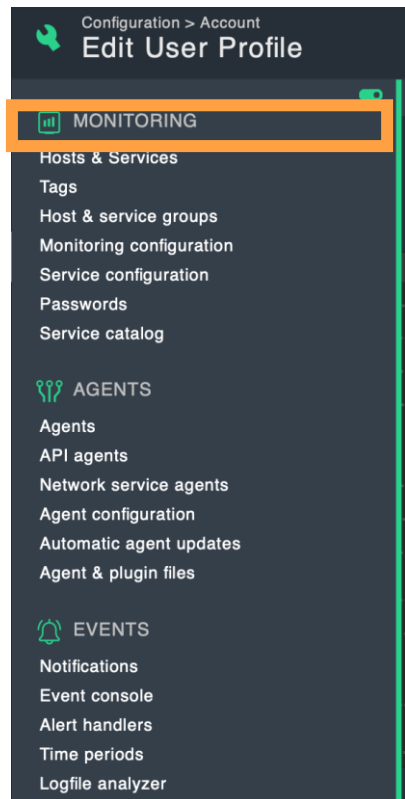

❑ Mega-menu

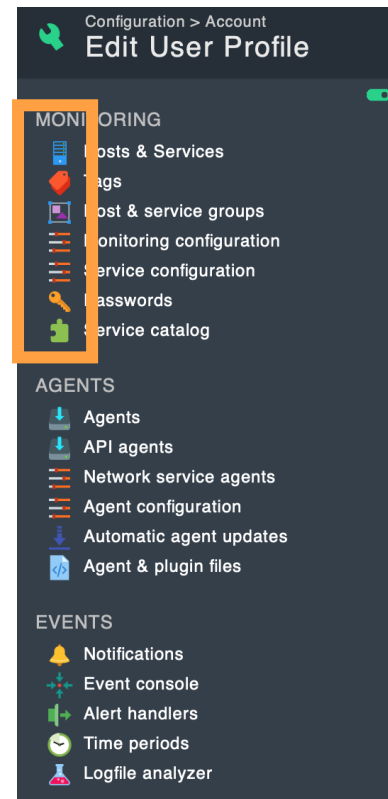

❑ Menu in 2nd sidebar column

Q4: Would you prefer an icon per topic or per entry?

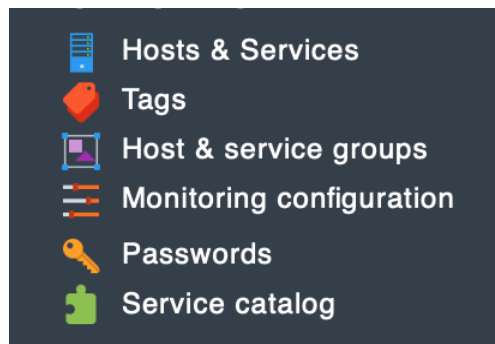

- ❑ Icon per topic

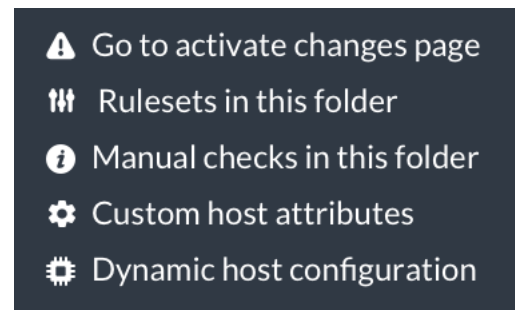

- ❑ Icon per entry

Q5: Do you prefer every icon differently colored or single color?

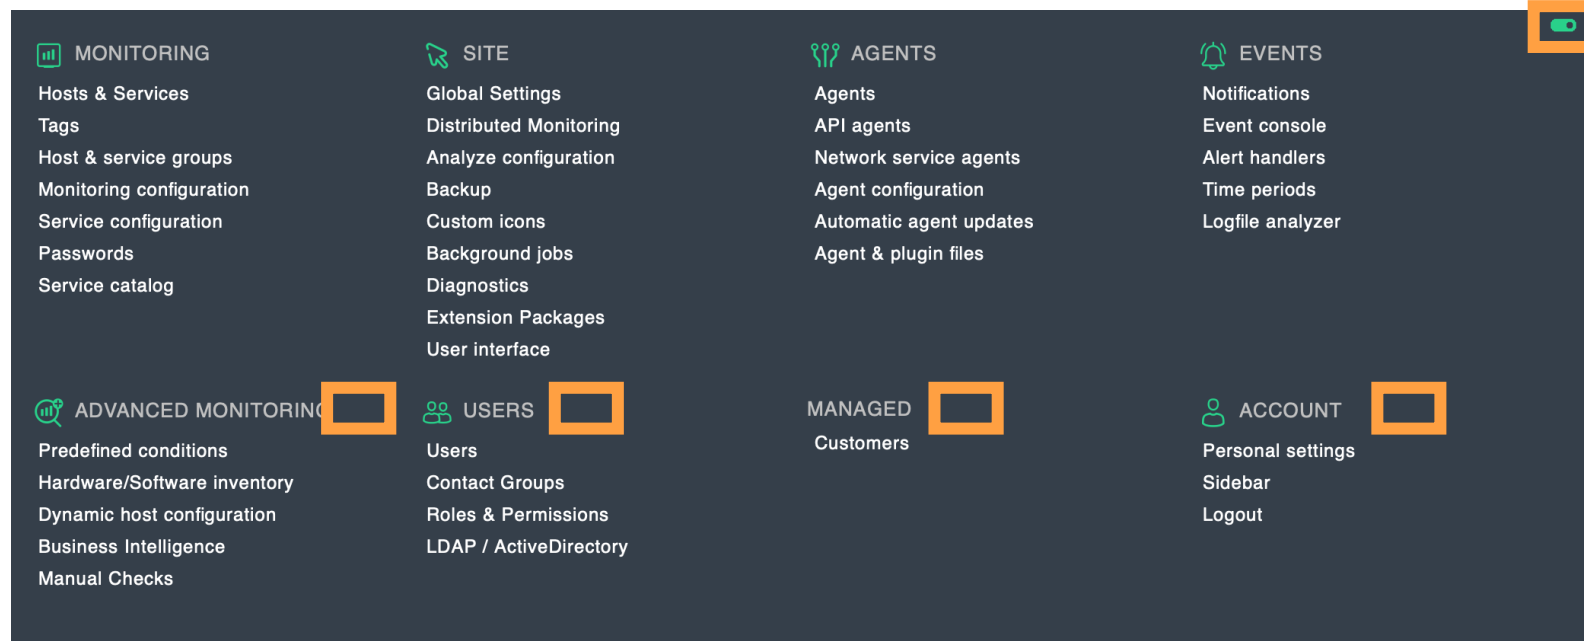

❑ All colored

❑ Uni-color

Q6: Would you prefer to switch between basic and advanced per topic or per menu?

□ Basic button per menu

□ Basic button per topic

Q7: Do you also want to switch between basic and advanced in snapins?

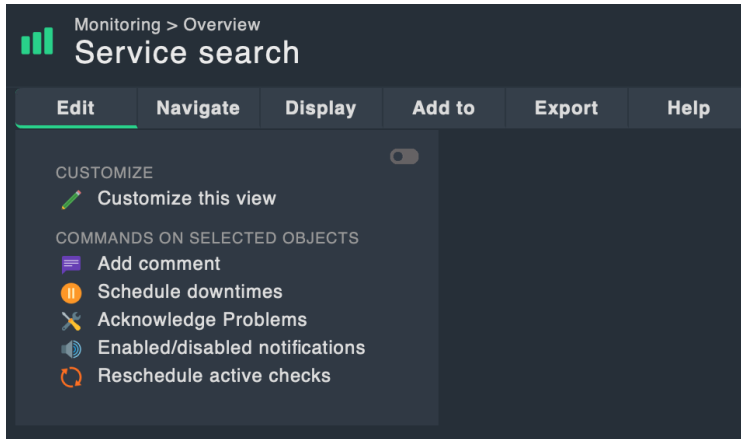

- Yes, basic button in snapins

SERVER PERFORMANCE		⏻ — ✕
Service checks:	0.61/s	
Host checks:	0.60/s	

- No, no differentiation wanted

Q14: You are already users. If you would have not yet used Checkmk, what would have made the start easier for you?

Answer options. You can select up to 3 answers:

- ☐ Agent installation script
- ☐ Checkmk installation script
- ☐ Guided Tour
- ☐ Tutorial videos
- ☐ Many UX details (consistent labels, grouping, better help function)
- ☐ Complete user manual
- ☐ None of the above

Q15: All in all, are we on the right track?

☐ Yes

☐ No

Who answered with no?

You have to explain yourselves 😊

Please help us understand and
write us an email to
no-reply@example.com

Just kidding 😊

Really, please help us understand
and write us an email to
ux@checkmk.com

Thank you
